

KNOW BEFORE YOU GO

Gun Free Zones (no guns signs posted in Clark County)

You decide if you want to carry in these businesses and take your chance to be asked to leave or be prevented from entering or better yet why not take your business elsewhere.

Signs do NOT carry the weight of the law, but do be aware if you are asked to leave and you do not you can be charged with Trespass.

Why support businesses that are taking your RIGHT to self-defense away and worse that might be supporting anti-gun advocates to REMOVE your rights. BOYCOTT them and give your business to those that do not post signs.
